OBJECTIVE

AEM Developer with 4.5 years of experience in designing and implementing scalable content management solutions using Adobe Experience Manager, including AEM as a Cloud Service and Adobe Managed Services (AMS). Skilled in frontend technologies such as HTML5, CSS3, SASS, JavaScript, HTL (Sightly), and React, as well as backend development with Java, Apache Sling, and OSGi. Expertise in AEM's headless architecture, leveraging Content Fragments, GraphQL APIs, and robust integration strategies to deliver seamless digital experiences. Possesses strong communication skills, enabling smooth collaboration with stakeholders and alignment with project objectives.

SKILLS

Programming Languages	Java, JavaScript, Python, C/C++
Front-End Technologies	HTML, CSS, SASS, Slightly/HTL, jQuery, Bootstrap, ReactJS
Backend and Server-side	JSP, Servlets, OSGi, Sling Models, JUnit, RESTful APIs
Development tools	Maven, IntelliJ IDEA, VS Code, Eclipse, Git, Jenkins, CI/CD Pipelines, Azure Boards

EXPERIENCE

Senior AEM Developer, Coca-cola Project
Infosys Limited

Aug 2024 - Present
Hyderabad

- Developed and deployed scalable web applications using **AEM as a Cloud Service**, leveraging Sling Models and OSGi services for modular architecture.
- Developed custom components using **HTL (Sightly)**, JavaScript, and **SASS** styling, ensuring dynamic and responsive front-end design to enhance user experience.
- Integrated third-party APIs, utilized Sling Models with **JSON Exporter** using Jackson, and implemented headless AEM solutions for seamless data exchange.
- Authored and optimized custom **workflows**, crafted efficient content **queries**, and ensured robust code quality with **JUnit** test cases, adhering to best practices.
- Implemented **Content Fragments** and **Experience Fragments** using AEM's **Headless CMS** capabilities, ensuring reusable, consistent, and scalable content delivery across multiple channels.
- Configured **Multi-Site Manager (MSM)** and blueprints to support a global content rollout strategy with localized content adaptations.
- Proficient in gathering client requirements and enhancing applications using AEM features like **editable templates**, **workflows**, and custom components to align with business goals.
- Configured and optimized Dispatcher Caching, **Adobe Cloud Manager CI/CD pipelines**, and related cloud infrastructure for seamless deployments, enhanced performance, and efficient content delivery on AEMaaS.
- Experienced in **gathering client requirements**, translating them into technical specifications, and implementing solutions aligned with business objectives using AEM's advanced features.

AEM Developer, Virgin Atlantic Airways Project
Tata Consultancy Services

July 2021 - Aug 2024
Hyderabad

- Worked extensively on **AEM 6.5** with Adobe Managed Services (AMS), developing and maintaining websites using best practices for hosting and performance optimization.
- Designed and implemented editable templates with **template policies**, **component policies** and **themes** to enable dynamic authoring and tailored content structures
- Developed **custom** and proxy components with **Touch UI** dialogs and created responsive web pages using HTL, CSS, SASS, and **JavaScript**, ensuring flexibility and adherence to design standards.

- Developed backend logic using Sling **Models**, **OSGi** services, and **Servlets** to handle data processing and integrate seamlessly with frontend components.
- Developed all components adhering to **WCAG** (Web Content Accessibility Guidelines) and **ADA** (Americans with Disabilities Act) standards, ensuring accessibility and inclusivity for all users.
- Managed content **authoring**, **publishing**, and **replication** workflows, ensuring seamless delivery of high quality content across author and publish instances while maintaining synchronization.
- Administered **Digital Asset Management (DAM)**, including organizing assets, setting up metadata schemas, and optimizing asset workflows for efficient content usage and delivery

EDUCATION

Bachelor of Computer Science, Bapatla Engineering College 2017 - 2021
Relevant Coursework: Algorithms, Object-Oriented Programming (OOP), Web Technologies, Cloud Computing, Artificial Intelligence and Machine Learning.

Intermediate, Mathematics and Computers, Jawahar Navodaya Vidyalaya 2015 - 2017
Relevant Coursework: DataStructures, DBMS, C/C++, Core Java

CERTIFICATIONS

- Adobe Certified Professional- Adobe Experience Manager Sites for Developers (AD0-E123)
- Adobe Certified Professional- Adobe Experience Manager Business Practitioner (AD0-E1020)
